MOLD PLATE ORDER FORM

Mold plates are manufactured based on calculations using standard 80/20 ground beef. If you are planning to use a mixture other than 80/20 ground beef, a sample will be required in order to calculate the finished patty weight.

1. Product to be formed: _____

2. Pick two or more and rank them most important (1) to least important (3):

Weight in ounces: _____ Ranking: _____

Diameter: _____

Thickness: _____

Model number:

Serial number:

3. Type – Pick one:

- "S" Standard Weight (*Slightly under the nominal weight, typically used when breading patties*)
- "M" Medium Weight (*As close to weight stamped on mold plate, typically used for fresh operations*)
- "F" Full Weight (*Slightly more than nominal weight, typically used when freezing patties*)

4. Shape of patty: _____

5. Number of holes in mold plate: _____
